

AUTOMATIC AC SMART REGULATOR

Power Stabilizer

AVR relay type intelligent LCD display full automatic AC voltage regulators is a brand-new concept products. It is on the basis of years of producing relay type full automatic AC Voltage regulator, after improvement, innovation, and perfection of design with low energy consumption, over-voltage protection, under voltage-protection, over current protection, over power protection, over temperature protection, short circuit protection and so on. Many kinds of protection function integration and sets many new technologies such as selective delay, impact resistant multi function LCD display, energy saving and environmental protection.

Technical Specifications :

Model Number	NL 7075 X / 003
Alternate Code	AVR-1500VA
Output Voltage	220V, $\pm 1.5\%$ or 3.5%
Input Voltage	AC140 - 260V, 50/60 Hz, 1 Ph
Overvoltage Protection Value	$<250 \pm 2V$
Number of Output	2 multiple socket
Dimension (mm)	195 (L) x 165 (W) x 130 (H)
Approx. Weight	2.7 kg
