

## HANDHELD THERMOMETER c/w PENETRATION PROBE

### Temperature Measuring

High precision digital display handheld thermometer come with K type penetration probe for high accuracy measuring, equipped 1.0 meter flexible cable. Soft protection cover with stand suitable for lab, concrete curing, bitumen and etc.

### Technical Specifications :

Model Number	NL 7034 X / 025
Tem. Reading Unit	°C or °F
Temperature Range	-50 ~ 500°C
Resolution	0.1° or 1°
Accuracy	±0.2% FS ±1°C
Source	4AAA Alkaline Battery
Probe Detail	Ø3 x 200 mm 1g.
