

SOIL SAMPLER APPARATUS

Standard: ASTM D420/D1452,
AASHTO T86/T202, CNR a. VI n 25

Soil Sampling

Used to obtain samples that adequately represent each surface material that is significant to the project design and construction. The apparatus complete with T – Handle with extension rod.

Technical Specifications :

Model Number	NL 5020 X / 001
Approx. Weight	7 kg

Set Consist Of :

Model Number	Parts Description	Qty
NL 5005 X / 001 – A 005	'T' Handle	1no.
NL 5005 X / 001 – A 004	Extension Rod 1 meter (L)	1no.
NL 5042 X / 001 – P 011	Jarring Link 38 mm	1no.
NL 5020 X / 001 – P 001	Stainless Steel Sample Tube Ø 38 x 230 mm (L)	1no.

Optional Accessories :

Model Number	Accessories Description
NL 5020 X / 001 – A 001	Hand Operated Sample Extruder
NL 5042 X / 001 – P 010	Galvanized Steel Sample Tube Ø 38 x 230 mm (L)
